XF70 Fast Fill Commercial and Fleet Dispenser Certified to ANSI/IAS NGV 4.1-99/CSA 12.5-M99 (R2014) - NGV Dispensing Systems

Integrated CNG fueling dispenser is first to offer full certification

RICHMOND, Calif., MAY 2, 2016 – Parker Hannifin Corporation (NYSE: PH), the global leader in motion and control technologies, announces that the XF70 Fast Fill Commercial and Fleet Dispenser is now certified by CSA Group to ANSI/IAS NGV 4.1-99/CSA 12.5-M99 (R2014) - NGV Dispensing Systems. This makes the XF70 the only commercial and fleet dispenser to achieve the certification.

Featuring integrated fueling systems and intrinsically safe components, the XF70 is engineered from the ground up for heavy-duty fleets. With hundreds of installations worldwide, the XF70 helps secure Parker's position as the premier fleet fueling supplier. The dispenser is designed by Parker's Veriflo Division, a leading manufacturer of precision gas flow management products with over 86 years of industry experience.

According to Madhukar Puniani, Business Development Manager (Natural Gas Systems), Parker Veriflo Division, "With its certification to ANSI/IAS NGV 4.1-99/CSA 12.5-M99 (R2014) - NGV Dispensing Systems, the XF70 Commercial and Fleet Dispenser offers customers even greater confidence in the performance and durability of the XF70."

Rich Weiser, Regional Vice President US & Mexico, CSA Group said, "As the first manufacturer to have its compressed natural gas dispenser certified by CSA Group to the binational fuel dispenser standard, Parker is demonstrating its commitment to promoting alternative vehicle fuels that lower the impact on the environment. CSA Group is committed to developing standards and offering testing and certification programs that promote sustainable practices and products."

As the industry's only provider of complete industrial and fleet fuel dispensing solutions for high-flow, high-cycle CNG applications, Parker also offers a wide range of class-leading CNG dispenser kits, subsystems, and components to meet all customer needs and requirements. Parker leads the industry in the design and manufacture of multi-technology systems, subsystems, and components that filter, regulate, control, and convey CNG.

For more information regarding Parker's XF70 CNG fleet fuel dispensing products, as well as other alternative fuel solutions, visit <http://solutions.parker.com/alternativefuels> or contact the Veriflo Division at 510-412-1100 or ngv@parker.com.

About Parker Hannifin's Veriflo Division/Instrumentation Group: Veriflo is a leading manufacturer of precision diaphragm and bulk gas valves, regulators, and flow control components for the control and application of liquids and gases.

About Parker Hannifin: With annual sales of approximately \$13 billion in fiscal year 2015, Parker Hannifin is the world's leading diversified manufacturer of motion and control technologies and systems, providing precision-engineered solutions for a wide variety of mobile, industrial and aerospace markets. The company has operations in 50 countries around the world. Parker has increased its annual dividends paid to shareholders for 60 consecutive fiscal years, among the top five longest-running dividend-increase records in the S&P 500 index.
