

Membrane Water Purification

ENGINEERING YOUR SUCCESS.

Industrial Water - Power Generation

Parker Features:

- Worldwide Parker Locations and Global Customer
 Support
- High Quality Equipment/ Solutions Since 1918
- Environmentally Engineered Membrane Solutions
- In-house Custom
 Equipment Machining and
 Fabrication of Titanium,
 Duplex, Super Duplex,
 Hast-C, Aluminum
- Single Source For All Membrane Treatment Equipment-Unit
- Responsibility
- Over 50,000 Parker Employees
- ISO Certified Quality
- 24/7 Availability Reliability Global Footprint

Engineered Membrane Water Treatment Solutions for Power Generating Stations and Industrial Facilities

- Ultrafiltration (UF)
- Nanofiltration (NF)
- Brackish Water Reverse Osmosis (BWRO)
- Sea Water Reverse Osmosis (SWRO)
- Membrane Contactors (MC) -CO₂ Degas
- ElectroDeionization (EDI)

Industrial Water - Power Generation

Applications:

Parker Membrane Systems designed for pretreatment filtration, desalination, and Ultra-Pure Demin (EDI) water production. Equipment provided as pretested packaged skids or turnkey containerized industrial grade solutions.

Parker Hannifin Corporation

We manufacture highly engineered components and systems used around the world for various applications. Parker products are installed and operating in many industries such as Power generation, Aerospace, Oil and Gas, Beverage Production, Marine, Military, Agriculture, Construction, and other industrial applications.
