## Function Fittings with Safety Control System

1

### "Safety first" for Operators & Equipment Protection

*Safety fittings protect operators and equipments by immediately stopping air supply in case of emergency stop.*

- A proven blocking safety function tested in extreme conditions in our LPCE laboratory during more than **170 millions cycles**
- **Compliant** with the **DI 2006/42/CE** European safety regulation for equipments to ensure machine file approval facilitation

2

### Efficient for Productivity

- Helps to **restart the equipment** after an emergency stop, by relieving safely and gradually the remaining pressure

3

### Reliable for Peace of Mind

- **3 materials** available (engineered polymer, nickel-plated brass and 316L stainless steel) to suit **industrial, food & beverage** and **chemical** applications needs
- Proven automated process which is **camera controlled**
- 100% leak test control
- **Quality Management** system that follows ISO IATF 16949 automotive industry requirements
- Products **made in Europe** to ensure a sustainable service
