

# SALES TIPS

## LF 3000® Push-In Fittings

1

### Reliable & Robust for Peace of Mind

- Higher mechanical, chemical & impact resistance with **glass fibered engineered polymer**, compared with PBT or POM of competitors
- High sealing performance thanks to our **patented D seal**, with no pumping effect
- Proven **automated** process which is **camera controlled**
- 100% leak test control
- Strong quality management system: **ISO 16949 IATF** automotive industry certification

2

### Easy to Use for More Productivity

- **Push-in technology** for quick connection
- **Compact** product to save space
- More than **20 shapes** and **7 diameters** for highly flexible configurations and complexity reduction
- Products **made in Europe** to ensure a sustainable service
- **Energy saving** thanks to sealing performance
