SCOPE OF REGISTRATION REVISION 0A2205.5

The scope of this registration revision is a change of the manufacturing location for the Instrumentation Pipe Fittings from the Parker Hannifin Instrumentation Products Division (Parker). Parker will be expanding the source of supply of several pipe fittings to multiple third-party suppliers. Parker has qualified and approved each supplier and their quality system in accordance with Parker's quality program requirements. All products manufactured by a third-party supplier will be manufactured to the applicable Parker drawings and engineering standards. There will be no change to the pressure boundary components or materials. For commercial reasons, Parker cannot name the third-party suppliers. For convenience, a copy of Parker's current ISO 9001 certificate is attached.
