

SALES TIPS

Standard Tubings

1

A Solution for Each Application

- **PA** for **pressure and chemical** resistance needs
- **PU** for applications where a small bend radius is required
- Advanced **PE**, recommended with Liquifit® fittings, complying with the most demanding Food & Beverage regulations

2

Reliable for Peace of Mind

- **Perfectly fit with our push-in fittings** to offer a unique balance between low insertion force and high sealing performance
- Unique reliability thanks to a solid automated and **laser controlled** extrusion process
- Products **made in Europe** to ensure a sustainable service

3

Easy for More Productivity

- Easy storage, easy handling and easy unroll of the «**TubePack®**» solution
- **Marking** on the tubes to ensure permanent identification and knowledge of the remaining length
