

# SALES TIPS

## Thermoplastic Couplings

1

Specifically Designed for **Life Sciences** Applications

2

**Resistant** for Fluid Integrity

- **No substances migration** for perfect fluid integrity with raw material used
- Wide range of **chemical compatibilities**:
  - POM or PVDF bodies
  - NBR or FKM seals

3

**Easy to Use** for More Productivity

- Lightweight and compact couplings for **ergonomic** use
- **Color** coded versions to avoid different media mixing up
- 2 sleeve types to suit **handling** needs
